QUOTE # WTP-Q-2027-058

ISSUED Jan 18, 2027

VALID UNTIL Feb 17, 2027

CONTACT Chris Nakamura

New computers, Microsoft 365 and a secure network

Dr. Vasquez, thank you for walking me through the practice. Your nine desktops run Windows 10, which no longer gets security updates, and the files and email live on a server in the back office. This quote replaces both: twelve laptops, Microsoft 365 for email and files, a business firewall and Wi-Fi, with the move done over one weekend.

What changes

AREA	TODAY	AFTER
Computers	9 desktops, Windows 10, no updates	12 laptops with docks, Windows 11 Pro
Email and files	A server in the back office	Microsoft 365 and SharePoint
Network	A consumer router, one Wi-Fi for all	Business firewall, staff and patient Wi-Fi apart
Backup	A USB drive, changed weekly	Daily cloud backup of email and files

Four weeks to go live

The office stays open throughout; the move happens on a Saturday.

○ **WEEK 1**
Order
Hardware and licenses ordered.

○ **WEEK 2**
Prepare
Laptops set up in our shop.

○ **WEEK 3**
Move
Saturday cutover, network installed.

○ **WEEK 4**
Train
Two sessions for the team.

Terms

1. Patient data

1.1 We sign a business associate agreement with the practice before any work that touches patient information.

2. Licenses

2.1 Microsoft 365 and security licenses are annual commitments, billed monthly. Users can be added at any time.

3. Hardware

3.1 Hardware is ordered when you accept and cannot be returned once opened, except under the manufacturer's warranty.

4. Payment

4.1 Hardware is invoiced on delivery, project services on completion, net 15.

Accept this quote

Sign to accept, choose a support plan if you want one, and we order the hardware the same day.
